Sacramento Valley Section **APACA**

Globe Mills Program/Tour (April 29, 2009)

On April 29, 2009 the Sacramento Valley Section APA CA Young Planners Group (YPG) in partnership with the ULI Sacramento Young Leaders Group (YLG) held a program and site tour of the historic Globe Mills project. The program and site tour showcased the public-private partnerships and innovative reuse of the historic Globe Mills site located in the historic Alkali Flat neighborhood adjacent to downtown Sacramento. The event included an onsite presentation and panel discussion and a site tour of the redeveloped mill. The program focused on the use of public-private partnerships to overcome obstacles to the financing, adaptive reuse, design, and redevelopment of infill sites. The

site tour focused on the innovative design and unique architectural elements that were employed to convert the existing, dilapidated mill into a mixed-use development.

Program Thanks

Special thanks to [CFY Development](#) for opening the Globe Mills to the APA YPG and ULI YLG and hosting the program and tour.

- Michael F. Malinowski, AIA, President, [Applied Architecture Inc.](#)
